REGISTRATION FORM INSTRUCTIONS FOR COMPLETION

1. The application form may be completed directly on the computer screen in Word by tabbing through the fields to be filled in, and then printed out and signed; alternately, you may print out the blank form and fill it in by hand. An example filled-out form follows, as does a blank form for you to complete yourself.
2. If you require assistance with this form, such as with the Polish versions of place and people names (which in Polish always seem to have different endings than the simple name), please contact your local support group or send an e-mail with the information in English to Aneta.Hoffmann@kresy-siberia.org for help with the correct Polish versions.
3. Register yourself for support by sending page 2 of this set to our international support group.
4. It is important to register your application with our international support team, or with one of our local support groups if you are in contact with them. There is strength in numbers and we can provide you updates and assistance if you register with us. See the registration table and contact details on the following page.
5. **PRIVACY:** Any personal information that we collect from you will not be divulged to any third party, and will only be used by us in support of your personal and the group's collective applications for compensation.
